3.1.	<i>Efficient and modern engineering supply infrastructure</i>			
3.1.1.	<i>Renewing and developing the water supply and wastewater management infrastructure</i>			
3.1.1.1.	Inventory and legalization of water supply and wastewater (domestic and rain) collection systems	Length of inventoried systems (km)	2016–2022	KCMA, UAB <i>Kauno vandenys</i>
3.1.1.2.	Renovation and installation of	Length of the renovated water supply systems (75	2016–2022	KCMA, UAB <i>Kauno vandenys</i>

Item No.	Measure	Measure implementation indicator	Implementation period	Competent authority
	drinking water supply and wastewater collection system	km); Length of the renovated domestic wastewater systems (70 km); Length of the newly installed water supply systems (30 km); Length of the newly installed domestic wastewater systems (15 km); Number of the renovated domestic wastewater pump-houses (30); Number of the newly installed water supply pump-houses (2); Water improvement equipment installed in the watering-place of Kaunas city (2)		
3.1.1.3	Reconstruction and installation of run-off water collection and treatment infrastructure	Length of the renovated run-off water systems (30 km); Number of the renovated run-off water dischargers (50); Length of the newly installed run-off water systems (12 km); Number of the installed run-off water treatment plants (79); Prepared project for separation of run-off water systems of Centras, the Old Town and the New Town	2016–2022	KCMA, UAB <i>Kauno vandenys</i>
3.1.2.	<i>Increasing the efficiency of energetics systems and energy consumption</i>			
3.1.2.1.	Renovation (modernization) of apartment houses through implementation of the programme for increasing the energy efficiency	Number of the prepared energy performance certificates and investment plans (1,500); Number of the renovated (modernized) apartment houses (500)	2016–2022	Construction Division, Housing Fund Administration Division of KCMA
3.1.2.2.	Increasing the energy efficiency of public buildings	Number of the buildings with the improved energy efficiency (30)	2016–2022	Construction Division of KCMA

Item No.	Measure	Measure implementation indicator	Implementation period	Competent authority
3.1.2.3.	Renovation and development of the lighting network, introduction of energy saving measures	Implemented Kaunas city street lighting modernization project (based on the principle of public-private partnership and other sources of financing); Number of the renovated (installed) light points; Number of the introduced energy saving measures	2016–2022	Energy Division of KCMA
3.1.2.4.	Increasing and developing the heat generation efficiency	Number of the reconstructed and installed heat generation plants; Installed combined heat and power plant; Number of the segments of non-integrated heating system connected to the integrated system	2016–2022	KCMA, UAB <i>Kauno energija</i>
3.1.2.5.	Increasing the safety and reliability of heat supply	Length of the reconstructed heat transmission pipeline (km); Reduced heat grid losses (proc.)	2016–2022	KCMA, UAB <i>Kauno energija</i>
3.2.	<i>High-quality and safe transport infrastructure</i>			
3.2.1.	<i>Ensuring the quality of transport infrastructure</i>			
3.2.1.1.	Implementation of the project “Rail Baltica” in Kaunas (installation of Amaliai crossing, bypass road and the part of the Southeast Bypass)	New pedestrian tunnel with pedestrian walkways and cycle paths under the route “Rail Baltica”; Reconstructed Marių street to Palemono street by equipping the crossing with the route “Rail Baltica”; Reconstructed Chemijos and Kalantos streets by equipping the crossing with the Southeast Bypass and the route “Rail Baltica”	2016–2022	Urban Development and Architecture Division, Construction Division of KCMA
3.2.1.2.	Minimization of the transit traffic flows by constructing bypasses	Installed Kaunas Southeast Bypass (street of the category A2 with the nodes of different levels and the new bridge below the level of Kaunas Reservoir); Number of the equipped crossings with a view to integrate the city’s street	2016–2022	Urban Development and Architecture Division, Urban Management Division of KCMA

Item No.	Measure	Measure implementation indicator	Implementation period	Competent authority
		network into the system of the bypasses of uninterrupted traffic		
3.2.1.3.	Renovation and development of the city's streets, pedestrian zones and their structures (list of the objects according to the Annex)	Area / number of the reconstructed, majorly repaired and newly constructed streets (km ²) / bridges; Area of the reconstructed Laisvės Alėja (km ²)	2016–2022	Urban Development Division of KCMA
3.2.1.4.	Making of Kaunas city “black spots” map	Made map of the most dangerous places, i.e. "black spots" (where the largest numbers of human injuries are recorded), of Kaunas city's streets	2016–2022	Transport and Traffic Planning Division of KCMA
3.2.1.5.	Increasing the safety of pedestrian traffic	Number of the modernized pedestrian crossings in which the largest numbers of events have been recorded (30); Number of the regulated pedestrian crossings equipped near educational institutions (5)	2016–2022	Transport and Traffic Planning Division of KCMA
3.2.1.6.	Modernization of traffic light equipment	Developed priority system for public transport at the street crossings; Traffic light equipment adapted for the requirements of the Road Traffic Rules which will come into effect since 2020; Number of the traffic light systems at the street crossings of the reconstructed streets in Savanorių avenue (22); Number of the created coordinated traffic corridors	2016–2022	Transport and Traffic Planning Division of KCMA
3.2.1.7.	Development and implementation of intelligent information systems in such fields as public transport, management of motor transport flows and parking	Introduced smart parking information system; Introduced Kaunas city application for smart mobile devices; Introduced automatic toll system charging for entering the established areas	2016–2022	Transport and Traffic Planning Division of KCMA, UAB <i>Kauno autobusai</i> , public institution <i>Automobilių parkavimo aikštelės</i>

Item No.	Measure	Measure implementation indicator	Implementation period	Competent authority
3.2.1.8.	Development of the system of the technical traffic regulation measures	Introduced system for management of technical traffic regulation measures' GIS and collected data on the road signs built in Kaunas city	2016–2022	Transport and Traffic Planning Division, Information Technology of KCMA
3.2.1.9.	Preparation and implementation of the solutions for traffic operation in Studentų g. (beside the Student Town area of Kaunas University of Technology)	Prepared and implemented solutions for traffic operation in Studentų g. (from A. Baranausko to K. Baršausko g.)	2016–2022	Urban Development and Architecture Division, Urban Management Division of KCMA, Kaunas University of Technology
3.2.2.	<i>Developing the public and non-motorized transport systems</i>			
3.2.2.1.	Equipment and renovation of the infrastructure of pedestrian walkways, cycle and other non-motorized transport paths, roads and other related infrastructure	New cycle paths: cycle path by Užnemunės g.; cycle path from Kuršių g. to Vandžiogalos g.; cycle path Eiguliai–Kalniečiai–Žaliakalnis; cycle path Senamiestis–Aleksotas–Naujamiestis; cycle path Pramonės pr.–Taikos pr.; cycle path Baršausko g.; Length of newly equipped / renovated sidewalks, pedestrian walkways, cycle and other non-motorized transport paths and roads (km)	2016–2022	Environmental Division of KCMA
3.2.2.2.	Introduction of the public and private transport interaction systems	Prepared feasibility study on intermodality of private, public and non-motorized transport; Number of the equipped car / cycle parking lots “Parkuok ir važiuok” (“Park and Go”)	2017–2022	Environmental Division, Transport and Traffic Planning Division of KCMA
3.2.2.3.	Introduction of the automated bike rental system in Kaunas city	Introduced automated bike rental system; Number of bike rental points; Number of rented bikes	2016	KCMA, private sector
3.2.2.4.	Preparation and implementation of Kaunas City Municipality's	Kaunas City's sustainable mobility plan prepared and being implemented	2016–2022	Transport and Traffic Planning Division, Urban Development and

Item No.	Measure	Measure implementation indicator	Implementation period	Competent authority
	sustainable mobility plan			Architecture Division, Environmental Division of KCMA
3.2.2.5.	Development of environmentally-friendly transport	Number of the acquired new environmentally-friendly public transport vehicles (100); Number of the introduced electric vehicle charging stations	2016–2022	Transport and Traffic Planning Division of KCMA, UAB <i>Kauno autobusai</i>
3.2.2.6.	Installation and renovation of the public transport infrastructure	Infrastructure of the trolley-bus network adapted to the innovative electric public transport systems; CNG (compressed natural gas) slow-fill station equipped in the territory of UAB <i>Kauno autobusai</i> ; Number of the sheds equipped at public transport stops (400); Number of the information scoreboards installed at public transport stops (50); Number of the equipped transfer points (3)	2016–2022	Transport and Traffic Planning Division, Energy Division, Urban Management Division of KCMA, UAB <i>Kauno autobusai</i>
3.3.	<i>A safe and clean environment, efficient waste management</i>			
3.3.1.	<i>Protecting and preserving the environment, development of efficient municipal waste management</i>			
3.3.1.1.	Preparation and implementation of programmes for improvement of environment quality	Number of the programmes for improvement of environment quality being implemented; Monitoring of the condition of the plantings in Kaunas city conducted every three years; Number of the programmes for monitoring of environment quality being implemented in Kaunas city	2016–2022	Environmental Division of KCMA
3.3.1.2.	Preparation and implementation of noise prevention plans	Noise prevention plans prepared every 5 years; Number of the implemented noise prevention and reduction measures	2016–2022	Health Protection Division of KCMA
3.3.1.3.	Public education in	Environmental educational	2016–2022	Environmental

Item No.	Measure	Measure implementation indicator	Implementation period	Competent authority
	the fields of environmental protection and waste management	programmes being prepared and implemented; Number of the implemented public education initiatives		Division of KCMA, NGO, public institutions
3.3.1.4.	Inventory, maintenance and restoration of areas of natural and urbanized landscape	Area of the inventorized areas (ha); Area of the maintained / restored areas, (ha); Length of the cleaned coasts of water bodies (km)	2016–2022	Environmental Division, Urban Management Division of KCMA
3.3.1.5.	Development of the infrastructure of separate collection of municipal waste	Number of the provided sets of the mixed municipal waste and recyclables containers (underground and semi-underground) (300); Number of the equipped sites of the mixed municipal waste and recyclables containers (300)	2016–2022	Environmental Division of KCMA
3.4.	<i>Sustainable city area development, high-quality living environment</i>			
3.4.1.	<i>Planning a sustainable development of urban areas and their infrastructure</i>			
3.4.1.1.	Preparation and updating of area planning documents	Updated special plan for Kaunas city's heating facility; Number of the prepared area planning documents (including: for slope area preservation; for layout of new recreational plantings of local importance; for maintenance of protection zones for coasts of Kaunas city surface water bodies; for maintenance of the Nemunas Island with the park; for formation and legalization of the protection zones for the plantings in the industrial areas existing or newly equipped near the residential urban districts; for development of Industrial Centre in Julijanava)	2016–2022	Energy Division, Environmental Division, Urban Management Division, Urban Development and Architecture Division of KCMA
3.4.1.2.	Improvement of viability of the New Town and	Prepared document of integrated area planning	2016–2020	Urban Development and Architecture

Item No.	Measure	Measure implementation indicator	Implementation period	Competent authority
	promotion of intensive development			Division of KCMA
3.4.1.3.	Development of metropolitan and local urban axes	Prepared study on development of metropolitan urban axes (Žemaičių pl., Raudondvario pl., Veiverių g, A. Juozapavičiaus pr., Vaidoto g.; in the planned prolongation of Europos pr. towards Vakarinis lankstas; Savanorių pr. beside Kalniečiai); Prepared study on development of local urban axes (Žemaičių g., route from Varnių, Nuokalnės streets, Tvirtovės avenue and Taikos pr., A. Juozapavičiaus pr., Europos pr. – its prolongation to the western detour)	2016–2022	Urban Development and Architecture Division, Property Division of KCMA
3.4.1.4.	Taking over of areas for public needs	Number of the reserved areas (including: for the Southeast Bypass (Ateities pl.); Briuselio g.; Vijūku g.; part of Technikumo g. (from Naujokų g. to Kalvarijos g.); Šeštokų g. and its prolongation to the planned Šeštokai roundabout; northern part of Europos pr.; for passenger piers in the Nemunas River and the Neris River); Area of the land taken over for public needs (ha)	2016–2022	Urban Development and Architecture Division, Property Division of KCMA
3.4.1.5.	Improvement of the infrastructure and plantings in the yards of apartment houses	Number of the land plots formed near the apartment houses; Prepared integrated programme for improvement of the infrastructure and plantings in the yards of apartment houses	2016–2022	Urban Development and Architecture Division, Energy Division, Urban Management Division, Transport and Traffic Planning Division, Environmental

Item No.	Measure	Measure implementation indicator	Implementation period	Competent authority
				Division of KCMA, owners of the buildings
3.4.1.6.	Preparation of ideological projects / programmes on urban development and architecture	Prepared ideological projects / programmes of 5 individual parts of the city	2016–2022	Urban Development and Architecture Division of KCMA
3.4.2.	<i>Improving the living environment and public infrastructure</i>			
3.4.2.1	Implementation of the programme for development of Kaunas city integrated areas for 2014–2020	Number of the targeted areas where the development programme is being implemented; Number of the implemented projects in targeted areas	2016–2022	KCMA
3.4.2.2.	Renewal and development of the city's parks, public spaces, recreational zones	Number of the renewed / established parks, public spaces, recreational zones; Number of the renovated / equipped public toilets; Number of the integrally managed areas (including: area of the oak grove of Aukštieji Šančiai, areas of the reserve of confluence of the Nemunas River and the Nevėžis River)	2016–2022	Urban Management Division, Urban Development and Architecture Division, Environmental Division of KCMA
3.4.2.3.	Renovation and development of community and public infrastructure	Number of the implemented projects;	2016–2022	KCMA

ANNEX

Measure	Measure implementation indicator	Implementation period	Competent authority
1.3. Kaunas turned into a competitive cultural and conference tourism attraction centre			
1.3.1. Developing the public infrastructure that improves the public tourism and general image of the city			
1.3.1.6. Annex to the measure “Improvement of the city image by installing the lighting of the tourism infrastructure and objects”	Installation of the lighting networks in the pedestrian walkways at the approaches to Kaunas County Public Library near Radastų street, in Kaunas	2016–2017	Energy Division, Urban Development and Architecture Division of KCMA; Architects Association of Lithuania
	Installation of street lighting networks. Stage III: Kaunas Castle surroundings – Santaka walkways – Nemunas quay (near the amphitheatre dock)	2016–2019	
	Approaches to St. George Church	2017–2018	
	Lighting of the façade of the building of Kaunas St. Michael the Archangel's (the Garrison) Church, Independence Square	2017–2019	
	Renovation of the lighting in the Town Hall square	2018–2019	
	Installation of the lighting in Vytautas Park	2019–2020	
	Lighting of the façade of the building of M. Žilinskas Gallery, Independence Square	2021–2022	
	Installation of the lighting in the Student Square near K. Donelaičio g.	2020–2021	
	Reconstruction of the lighting of the streets of the Old Town and the New Town – light points: Santakos g. (10 units), Muziejaus g. (4 units), Priekplaukos krantinės g. (10 units), Jėzuitų skersgatvis (4 units), Muitinės g. (9 units), V. Kuzmos g. (7 units), J. Naugardo g. (5 units), Kumelių g. (6 units), M. Daukšos g. (24 units), Kurpių g. (13 units), L. Zamenhofo g. (5 units), A. Mapu g. (7 units), J. Jablonskio g. (5 units), Palangos g. (11 units), D. Poškos g. (8 units), Miško g. (17 units), Karo Ligoninės g. (7 units), M. Valančiaus g. (24 units), Vilniaus g. (122 units), President’s Garden (11 units)	2016–2018	
	Lighting of the building of Maironis Gymnasium (former building of the Seimas)	2018–2020	
	Lighting of Kaunas St. Nicholas Church, Benediktinų g.	2019–2020	
	Lighting of the building of the	2019–2020	

	Evangelical Lutheran Church in Karaliaus Mindaugo pr.		
	Other objects according to the need	2016–2022	
3.2. High-quality and safe transport infrastructure			
3.2.1. Ensuring the quality of transport infrastructure			
3.2.1.3. Annex to the measure “Renovation and development of the city’s streets, pedestrian zones and their structures”	Reconstruction of Laisvės al.	2015–2022	Urban Development Division of KCMA
	Reconstruction of Raudondvario pl.	2015–2017	
	Reconstruction / new construction of the Southeast Bypass	2016–2022	
	Reconstruction of H. ir O. Minkovskių g.	2016–2018	
	Reconstruction of Slėnio g.	2016	
	Reconstruction of Verkių g.	2018–2019	
	Reconstruction of Prancūzų g.	2017–2018	
	Reconstruction of Linkuvos g. and Žemaičių pl.	2018–2020	
	Capital repair of Savanorių pr.	2016–2018	
	Reconstruction of Panemunė Bridge	2016	
	Formed bypass of the Old Town – the New Town by equipping Kėdainių g. route with the bridge over the Nemunas River and by improving the parameters of H. ir O. Minkovskių g. on the left bank of the Nemunas River as far as M. K. Čiurlionis Bridge	2020–2022	
	Equipped deficient connections of streets Vijūku g., Europos pr., Minkovskių g., Briuselio g.	2016–2022
